UPDATE FOR PARENTS

24 APRIL 2020

Thank you Parents / whanau

Thank you for the support you are providing with distance learning for your children.
Thank you also for the helpful information about when your child is coming back to school.

The majority of parents/whanau have decided to take the advice from the Prime Minister and enable their children to continue to work from home.

HARDCOPY PACKS: It has been encouraging to hear that parents & children have received the hardcopy packs from the Ministry of Education (MOE).

Mayfield teachers are in the process of preparing school-created hard packs for the students who are learning at home.

These will be available from Wednesday 29 April. Parents can pick these up from the Home School Learning Room next to Room 11 (near the flagpole).

DEVICES: Mayfield School sent the relevant information to the Ministry of Education (MOE) for getting devices for students without hardware. We are aware that MOE started delivering these to secondary school students.

It may take quite some time for others to receive theirs (if there is enough stock). We have requested MOE to make a commitment to the offer.

WATER BOTTLES

For health and safety, Mayfield children are asked to bring their own water bottle from home.

Please check for updates.

Kind regards

Dubs Rai

Principal/ Tumuaki
