

Update for Mayfield parents / whanau

Although **Alert Level 3** allows children to return to school, the advice from the Prime Minister is for parents to keep the children at home. Most Mayfield parents/ whanau have followed the advice and have chosen to allow their children to participate in distance learning from home.

It is important to continue to use all the good health habits we have learnt through Level 4. The students and staff who have returned to school are now working in a new bubble. To enable everyone to be safe, we would like to keep to the same bubble for the rest of Alert Level 3 period. **The students who are involved in distance learning are asked to continue working at home until the end of Level 3 Alert.**

Those who have started back at school today may continue to come to school.

HARDCOPY PACKS

Mayfield teachers have been working extremely hard to put together learning resources for all the students – yes, all

students. The children who come to school will be using the same resources as those learning at home. Online learning will also continue. We would like to encourage parents to come and pick up the hardcopy packs to take home.

When you come to the front gate you will be directed to the Home School Learning Centre (near the flagpole) to collect the pack for your child.

Thank you

Parents/whanau and Mayfield students have to be congratulated for the way they have worked through the lockdown period.

Thank you for your support in your child's learning.

We always enjoy seeing parents/whanau. **However, if you wish to discuss any matters, it would be best for parents to phone the school.** If you wish to discuss any urgent matter, please come to the front door (nearest Pearl Baker Drive).

Just a reminder: We would like to ask the children who are working at home to keep working from home until the end of Alert Level 3. In this way, the children who are at school will continue to work in their bubble.

Kind regards

Dubs Rai
