Focus on quality learning

We are back and we are focused on our learning. There are only 11 school weeks left until the end of the year. **Every day matters when it comes to education.** Please continue to support your children by encouraging them to come to school unless they are sick or there are unavoidable circumstances at home.

Thank you

A team of staff members worked throughout the Level 3 lockdown period to ensure that (a) hardpacks were printed, collated and distributed (b) staff members remained in touch each day through the 'Check In' system (c) a high level of cleanliness was maintained at all times.

I am sure that parents/ whanau will join me in thanking Mrs Leala, Mr Cullen, Mr Hackett and his team for their absolute commitment to the children and the families of Mayfield School. The demonstration of their dedication was quite outstanding.

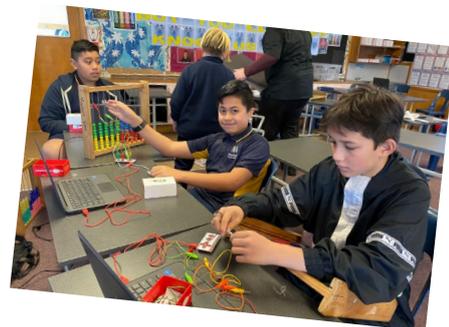

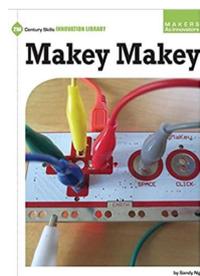

Learning Conferences

Due to the second lockdown, we had to postpone the remaining appointments for the Learning Conferences. Parents/whanau who have not had their conversations with the class teacher will have received the new date and time for the meeting.

The second part of Learning Conferences will be on **Tuesday 22 September**. Please check the notice that your child will have brought from school.

We are looking forward to meeting you.

Digital Technologies

Children in Team Te Rangi have been enjoying the new electronic resources. They are learning to integrate Makey Makeys and laptops in their experiments. The programme will extend to Team Te Moana in the following weeks. It is very rewarding to see Mayfield children excited about their learning and to see them work collaboratively and individually on a various projects.

We are happy to be back at school.

Stay well

Stay safe
